17.65% TWRR

Minimum investment
₹1 crore

Portfolio Objective

VQ Growth emphasis on investing in fundamentally sound, well researched companies having bright future prospect irrespective of market capitalization. The aim is to maximize the power of compounding. Here our philosophy is to pick high quality companies with proven track record at reasonable valuations and then let the compounding do its magic. Idea is to ride the growth phase in the company or industry over rolling 3-5 years' time frame.

Risk Factors & Disclaimers

Performance related information provided in this document is not verified by SEBI. Performance of each investor portfolio may vary from that of other investors and that generated by the Investment Approach across all investors because of: 1) the timing of inflows and outflows of funds; 2) differences in the portfolio composition because of restrictions and other constraints; 3) difference in fees and expenses charged to each of the client accounts and other constraints. The performance shown above does not guarantee future result. To see the performance relative to other Portfolio Managers within the selected Strategy please click in this link : <https://www.apmiindia.org/apmi/welcomeiaperformance.htm?action=PMSmenu>. Note: (i) Returns above 1 year are annualized. (ii) Returns are net of fees and expenses. (iii) The above returns are calculated using Time Weighted rate of return (TWRR). While computing returns of Investment Approach under which the Client account is managed, all clients falling under said Investment Approach during the relevant period were taken into consideration. (iv) All investments including cash and cash equivalents are considered for calculation of returns. Client has an option for direct onboarding without intermediation of person engaged in distribution services.
